SUMMARY

I am a Full Stack Developer with 1 year of experience in building efficient web applications using MongoDB, Express.js, React Js, and Node.js. I excel at creating seamless user experiences, optimizing performance, and delivering high-quality solutions. Committed to continuous learning, I thrive in Agile environments and embrace new challenges.

EXPERIENCE

Full Stack Developer

Top Class Entertainment

📅 10/2023 - Present 📍 Coimbatore, India

An entertainment company specializing in gaming and web applications.

- Developed a 2D casino game using React.js, Phaser.js, and Socket.io, featuring seamless multiplayer functionality, smooth animations, and responsive design.
- Optimized game performance to ensure lag-free gameplay and a high-quality user experience across devices.
- Built a live streaming application with React.js, Bootstrap, and API integration, emphasizing responsiveness and seamless performance.
- Developed a secure payment gateway project using React.js, Tailwind CSS, Daisy UI, and API integration for efficient transaction handling.
- I worked on creating and maintaining backend APIs for a flight booking CMS and a live streaming application, ensuring efficient migrations and robust functionality
- Performed code optimization, bug fixing, and debugging to enhance system reliability and efficiency.
- Delivered projects focused on responsiveness, user satisfaction, and performance optimization.
